MISSION
Every day all over the world, researchers are making groundbreaking discoveries that address current challenges and solve complex problems across a variety of fields. Due to advancements in technology, changes in demographics, adjustments to societal norms, the development of political and economic structures, and more, new theories, methods, strategies, techniques, and applications are constantly being established in response to both existing and evolving issues.

Based on the success of IGI Global’s latest Trending Topics Campaign, which provides news snippets and trending research breakthroughs relevant to IGI Global content, IGI Global has launched this new book series, titled the Trending Topics Book Series, which offers small anthologies of reprinted IGI Global book chapters and journal articles hand-selected by IGI Global’s Executive Editorial Board on topics currently trending and stirring up discussion and/or controversy.

Spanning across topics such as the multigenerational workforce, legislation for sustainability, emotional branding, privacy on mobile devices, robotics in healthcare, and bio-based product development, this book series aims to provide researchers, academicians, professionals, and students with the most up-to-date studies in order to advance knowledge across all industries.

COVERAGE
- Bio-Based Product Development
- Women in STEM Fields
- Environmental Legislation and Sustainability
- Aging Workforce
- Plan S and Open Access Movements
- Inclusive Learning
- Emotional Branding
- Eco-Cities
- Business Sustainability
- Robotics in Healthcare
